

# PROFORMA Series

Specification Linear Luminaire

## ELEGANT DESIGN, PRECISE PERFORMANCE.

### APPLICATION VERSATILITY

Sunled's Proforma Series is a complete 2.4" portfolio of specification linear LED with a broad range of geometric configurations, built-in distributions and a selection of diffusers. Available in multiple mounting options including suspended, surface and wall including a height of less than 3.5" that fits into any architectural space. Proforma up/down distributions can also be controlled with smooth 0-10V dimming

### THE ADVANTAGE OF DESIGN FLEXIBILITY

Designed for flexibility, the Proforma Linear Series is designed as a simple modular system for easy ordering and specification. A wide range of geometric connectors offer architects and project designers a tailored lighting solution with capabilities of runs from 2'-42' in a single power drop. An on board DIP switch with 7 in 1 different settings allows the user to tune the direct/indirect distribution with the required space. Every Proforma fixture has a built-in seamless connector with linkage as standard option, enabling a quick and economical installation process

### TAILORED SOLUTION THAT FITS FROM ALL ANGLES

Proforma Series Linear Series brings performance, efficiency, quality and technology that is at the core of Sunled Industries products. In addition to premium high quality matt finish and marine grade extruded aluminum the Proforma Series is covered by Sunled's 5 year warranty and full customer support programme

## Proforma Linear Luminaire

# UNLOCK THE POTENTIAL OF EVERY SPACE FROM DESIGN TO INSTALLATION

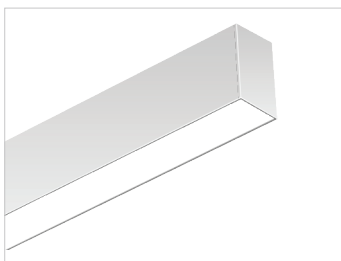

With the capabilities of Sunled's Proforma Linear modular design and wide ranging choices of linkable accessories, it is possible to create a perfectly blended space whilst maintaining a premium level of performance

The Proforma Series was created with architects and lighting designers in mind. It offers a full linear lighting line that's extremely versatile and simple to design, configure and install

Combining sleek seamless lines, brilliant color quality and ultra-smooth dimming, the Proforma Series is a modern solution designed to enhance both form and function.

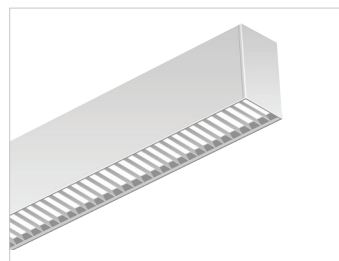

**The Proforma Series direct/indirect solution does it all**, in a system with a small scale 2.4" extruded profile that not only provides straight lines but also well-controlled ambient lighting with separate control of direct and indirect lighting—an excellent choice for commercial and retail ambient applications

- **Incorporating precision optics**, the Proforma Series offers 7 in 1 embedded direct/indirect lighting distributions by adjustable DIP switch
- **Ultra smooth full-range 0-10V dimming** for both direct/indirect beam angles
- **Low profile extruded marine grade** matte finish aluminum in 2'4'/8' lengths
- **Linkage option as standard** for a quality fit and continuous connection on the full portfolio
- **Continuous runs or patterns** with 5 joiner types including line, 90 deg or 120 degree configurations, creating a truly dynamic space
- Unique diffuser, louver, micro reflector and deep regressed lens options combining **architectural aesthetics with visual comfort**
- **Mounting accessories for every application** in suspended, surface and wall mount.
- **Assembled in our US facility** from imported parts

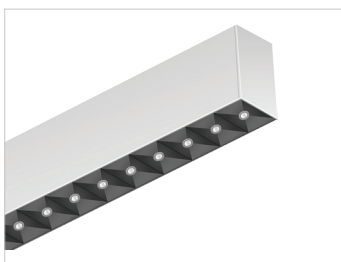

### Diffuser

Standard custom linear configurations of up to 42'

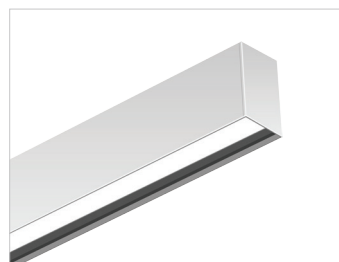

### Louver

Straight blade louver enables tighter beam angle for increased spill control

### Micro Reflector

Low glare modular optics with a UGR < 15

### Deep Regressed

Easy snap in lens optimises visual comfort and maintains a quiet ceiling

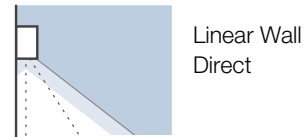

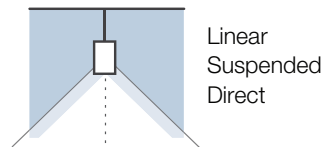

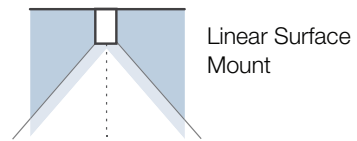

# Extend Creative Boundaries Beyond the Limits

Full suite of creative geometric patterns and corners for simple illumination projects to precision lighting solutions

- + **90/120° horizontal cornering** for versatile geometric patterning
- + **Linear runs** available virtually on any length
- + **Drop ceiling t-grid or dry plaster installation brackets** work with all ceiling types including 9/16" flat, 9/16" slot, 15/16" flat
- + **Wide range of canopy accessories for non-power, standard or emergency backup feeds** available in square or round canopy style. Standard configuration 1pc 4' AC feed / 1pc 2' canopy
- + **Up to 42ft run or 1pcs 2' fixtures** connected in series from a single AC120V power source
- + **Can be ordered with 42ft continous diffuser roll** for seamless 'no gap' linkage between fixtures
- + **Lengths of 2' to 8'** for increments up to 42' with just one power drop
- + **5' suspended luminaire with only two suspension mounts** for quick and easy installation
- + **Direct/indirect options** for all mounting variants
- + **Line and geometric connectors slot seamlessly** in all mounting types: suspended (standard aircraft cable), surface and wall mount
- + **Entire line can be design starting at 2' increments to 8'**, linked to any length fixture or installed individually for a clean continuous look

## MOUNTING OPTIONS/ DISTRIBUTION

## QUICK AND EASY DESIGN PORTFOLIO

Full suite of 2.4" linear portfolio with a wide range of beam angles, geometric connectors and multiple mounting options including pendant, wall mount or surface

- **Made for Specification:** Complete designers toolbox of connecting accessories and selectable distributions enable endless possibilities. Starting at 2' length up to 8', the Proforma Series enables runs of 2' to 42' with a single power drop
- **Made for Designers:** With 7 in 1 selectable distributions, designers are well equipped to choose whichever beams work with their concept for both direct / indirect configurations in elegant black or white finish, seamlessly blending into any architectural environment
- **Simple Installation:** Each Proforma fixture includes pre-installed linkage brackets enabling any linear run to be connected in a continuous row

## FAST ORDERING READY TO SHIP IN DAYS

With Sunled's customer service and full stock of Proforma fixtures our sales team can turnaround concepts into full designs that are ready to ship in days

## EASY INSTALLATION

Pre-installed linkage brackets enables any linear run to be connected in a continuous row for seamless site deployment of every configuration

## Performance Summary

**CCT:** 3000K, 3500K, 4000K

**Dimming:** 1-10V dimming, tested with Lutron, Diva DTV, Leviton IP-710-DL

**Color:** 80CRI

**Input Voltage:** 100-277V AC

### Delivered Lumens

Diffuser: 1050lm/ft, Louver: 900lm/ft, Micro Reflector: 950lm/ft, Deep Regressed: 950lm/ft

**Efficacy:** 80CRI: Up to 100LPW

**Average Rated Life:** >50,000hrs L70 min

**Finish:** White or black

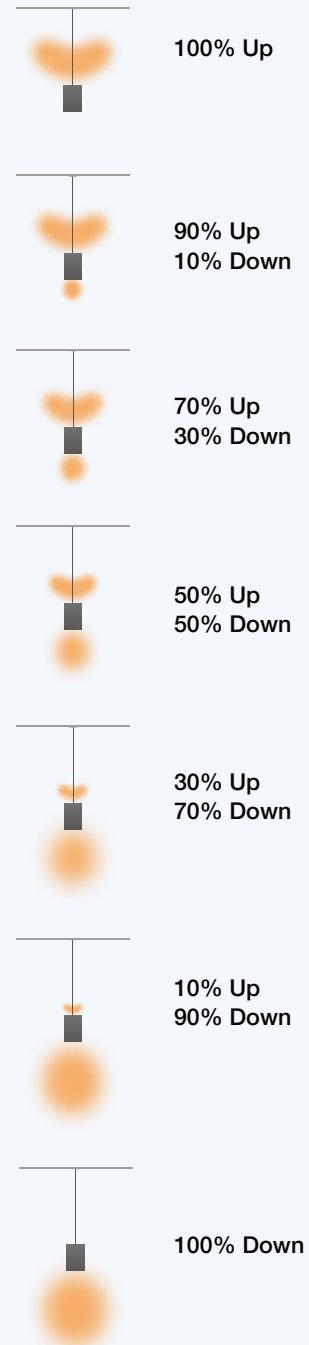

**Mounting:** Pendant, surface, wall mount, continuous rows, or single mounting

**Wattage Adjustable:** 50%, 75%, 100%

**Input Power:** 20 – 80 watts

## MULTIPLE APPLICATIONS

Proforma Linear Series is made for high end educational, commercial or healthcare applications
