## SOLAIR MOD/2

Commercial Downlight

Applications: Office buildings, airports, retail, education and healthcare, convenience stores, hospitality, showrooms, car dealerships, corporate

## PERFORMANCE SUMMARY

The Solair Mod/2 Series of down lights is a cost-effective solution for commercial-grade applications. Ideal for a variety of new construction projects the Solair delivers exceptional light quality at even greater mounting heights-up to 40 ft
Slim trim option creates a low profile presence in the ceiling with multiple 6, 8,10 inch apertures available, delivering up to 6,400 lumen packages to accommodate high ceiling applications. Driver capabilities include switchable CCTs and lumens with smooth 0-10V dimming

## Construction

- Galvanized steel mounting/plaster frame; galvanized steel junction box with bottom-hinged access covers and spring latches. Reflectors are retained by torsion springs
- Accommodates 12"-24" joist spacing
- Corrugated heavy duty steel sheathed driver cable

Optical

- Deep regressed lens conceals LEDs from direct view
- Comfortable opal diffuser eliminating dark spots for uniform illumination
- General illumination lighting with $1.0 \mathrm{~S} / \mathrm{MH}$ and $55^{\circ}$ cutoff to source and source image
- LEDs are binned to a 3-step SDCM; 80 CRI minimum
- Long LED life: L70 at $>50,000$ hours

## Electrical

- Dimmable with most Lutron and Leviton 0-10V dimmers
- 3 way adjustable power selection/CCT switch
- Emergency battery backup option available
- Volts: AC100-277V (40W) or $110-347 \mathrm{~V}$ ( 80 W ) $50 / 60 \mathrm{~Hz}$
- 0-10V isolated class 2 flicker free dimming drivers mounted to junction box with additional low voltage wires
. PF: > 0.9 THD: <20\%
