

# VENUS

Single Basket LED Troffer

## INSTALLATION INSTRUCTIONS

- (1) Turn off power to the fixture at circuit breaker before installation.
- (2) Remove existing lamps, door frame (if applicable), reflector and ballast cover. Depending on clearance space, ballast may need to be removed.
- (3) Connect the black/brown lead to line (+) supply lead. Connect the white/blue lead to neutral common (-) supply lead.
- (4) Connect the green lead to ground supply lead.
- (5) If any, connect purple/blue to 0-10V signal supply lead and grey/white to 0-10V neutral reference supply lead.
- (6) Bend the end of the hook to the right 90 degrees and attach housing onto the t-bar for a secure installation

### WARNING

Risk of fire or electric shock. Luminaire wiring and electrical parts may be damaged when drilling during installation of LED troffer. Check for enclosed wiring and components

### WARNING

Risk of fire or electric shock. LED troffer installation requires knowledge of luminaire electrical systems. If not qualified, do not attempt installation. Always contact a qualified electrician

### WARNING

RISK OF FIRE, ELECTRIC SHOCK OR PERSONAL INJURY

Before installation, turn power off
